REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The prior art taken either singularly or in combination fails to anticipate or fairly suggest the limitations of the independent claim(s), in such a manner that a rejection under 35 U.S.C. 102 or 103 would be proper. The prior art fails to teach a combination of all the claimed features as presented in claim(s) 1-23, wherein an adaptive optical system having a micro mirror array, and an interchangeable mount and method of mounting further comprises means for adjustment the position and orientation in six degrees of freedom and means for removably joining or securing one of the forward plates and relative to or against a rear/base plate, as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The following references are cited for disclosing an optical mounting device with adjustment features, but these references do not disclose an optical mounting device and method as claimed: Kaspareck (3596863), Bicskei (4077722), Wutherich (4408830), Arnone et al.
